Q4 Based on Question #3 are there additional barriers?

Answered: 28 Skipped: 1

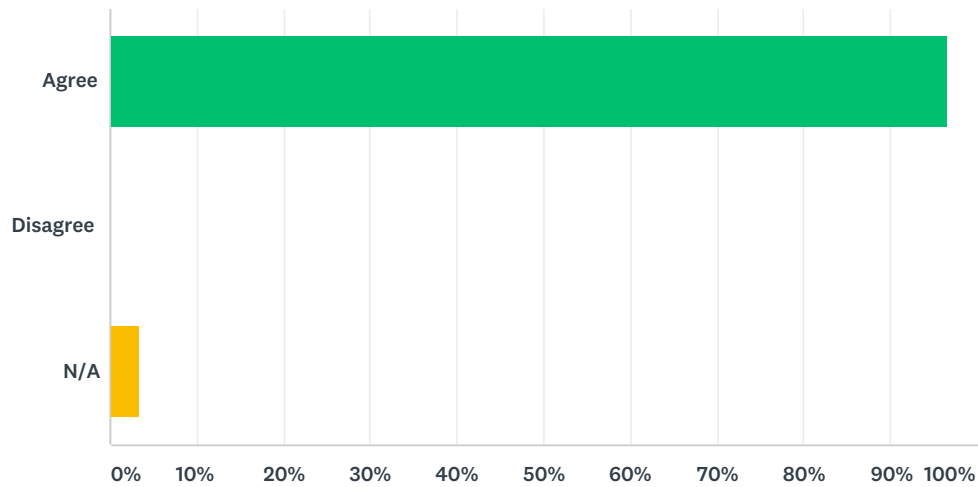

ANSWER CHOICES	RESPONSES	
Yes	46.43%	13
No	53.57%	15
TOTAL		28

#	IF YES, PLEASE SPECIFY	DATE
1	regarding adolescent substance abuse treatment services, the most crippling barrier to youth accessing services, above cost and transportation issues, is the lack of mandates by courts and school administrations to make sure kids get the services they need to help themselves.	11/15/2017 3:06 PM
2	strong leadership for performcare	11/14/2017 8:19 AM
3	Master's level providers should have to pass an exam or go through training on trauma, at a minimum.	11/13/2017 3:25 PM
4	New 90 day limit on CMO services given our clients transportation barriers and insufficient level of available outpatient services.	11/13/2017 10:21 AM
5	Lack of providers, overall. Lack of Medicaid-accepting providers in existence.	11/13/2017 9:47 AM
6	shorter time periods to service children and their families...State issue	10/19/2017 11:42 PM
7	need for youth consent coupled with the failure of courts and schools to mandate substance use treatment means that continuum of care no longer exists within Atlantic County to locally support SU treatment need of youth	10/18/2017 1:15 PM
8	Translation services in outpatient or bilingual therapists	10/17/2017 9:18 AM
9	Family engagement with difficult families	10/17/2017 9:06 AM
10	Number of staff to meet needs, lack of transportation, flexibility with time	10/12/2017 6:47 PM
11	Transportation and housing stability	10/12/2017 5:54 PM
12	Reduced services for kids in detention	10/12/2017 12:58 PM
13	Male BA's. Also, the current regulations for BA (3 years minimum experience and Bachelors degree, make it difficult to find providers that by that time have not become master level therapists.	10/12/2017 12:57 PM
